Date and application file number									Stamps by the importer and responsible person				

Date and number of receipt (Space below for use by Branches of Agriculture and Food Agency only)	

Remarks

1. To expedite the comparison work and ensure the conformity between application information and items such as quantity of import clearance and duty paying values, importers shall fill the form with the same data as that in the import declaration.

2. The document for organic labeling approval shall be coded under one of the following systems:
 - (1) 12-digit system (xxx-xxxx-xxxxx), as enumerated below:**
 - Digits 1~3: Year code. Please enter the year of the application (e.g., year 97 of the Republic of China, please enter 097).
 - Digits 4~7: Importer's Registration Code issued by the Council of Agriculture.
 - Digits 8~12: Running number of use in the year. For importers, please enter starting from the initial number (i.e., 00001) by the order. No double application for the same number. In a new year, the applicant should start from the initial number anew.
 - (2) 14-digit system (AGGR-xxx-xxxx-xxx), as enumerated below:**
 - Digits 1~4: English capital letter AGGR
 - Digits 5~7: Year code. Please enter the year of the application (e.g., year 106 of the Republic of China, please enter 106).
 - Digits 8~11: Importer's Registration Code issued by the Council of Agriculture

3. If the imported agricultural food products and agricultural food processed products being reviewed are manufactured by different foreign operators or certified by different certification bodies, the products shall be reviewed in separate cases, and therefore the applicant shall apply for individual file numbers of documents for the approval of organic labeling for each case.

4. Starting from January 1, 2018, the file numbers of documents for the approval organic labeling shall be coded using the 14-digit system.
