Title :	Regulations on the Management of the Crew of Fishing Vessels 
Date :	2014.09.25
Legislative :	<ol style="list-style-type: none">1.Promulgated on February 4, 19742.Amended on January 13, 19753.Amended on January 21, 19764.Amended on March 2, 19765.Amended on October 11, 19776.Amended on July 12, 19797.Amended on December 15, 19818.Amended on December 30, 19839.Amended on May 20, 198510. Amended on July 16, 198711. Amended on May 20, 198912. Amended on July 29, 199113. Amended on July 25, 199214. Amended on January 21, 199515. Amended on August 20, 199716. Amended on November 24, 199917. Amended on July 29, 200118. Amended on October 15, 200419. Amendment to Articles 4, 10, 11, 14, 15, 17, 21, 22 and addition of Articles 14-1, 14-2, 15-1, 15-2 promulgated on September 4, 200620. Amendment to Appendix 5 of Article 22 promulgated on October 3, 200721. Amendment to Articles 14, 14-1, 15, 15-1 ,16 ,17 ,19 ,20 ,21 ,23 ,31 and Appendix 1 of Article 10 Article, Appendix 2 of Article 11 Article, Appendix 5 of Article 22 promulgated on May 22, 200922. Amendment to Articles 2, 11, 14, 14-1, 14-2, 15, 15-1, 15-2, 17, 24, 31 and Appendix 1 of Article 10 Article, Appendix 3 of Article 15, deleted Article 6, and addition of chapter 4-1, Articles 32-1, 32-2 promulgated on August 10, 201023. Amendment to Appendix 3 of Article 15, promulgated on February 8, 201324. Amendment to Articles 8-1, 17-1 promulgated on September 25, 2014
Content :	<p>Chapter One General Principles</p> <p>Article 1</p> <p>These regulations (hereinafter "the Regulations") are made pursuant to Article 12 of the "Fisheries Act".</p> <p>Article 2</p> <p>Terms and phrases used in the Regulations are as follows:</p> <ol style="list-style-type: none">1.Fishing vessels: Any type of vessel registered in the Republic of China for the purposes of fishery operation.2.Crew: Any working member on the fishing vessel, including crew officers and regular fishermen.3.Crew officer: Any working members on the fishing vessels holding the position as captain, mate, chief engineer, chief

engineering supervisor, engineering supervisor, and radio operator.

4. Ordinary fisherman: Regular fisherman other than crew officer.

5. Captain: The one who is in charge of all affairs on the fishing vessel.

6. Mate: A crew officer on deck in charge of navigation.

7. Chief Engineer: A crew officer who is in charge of the operation of the vessel's main engines, auxiliary engines, and electronic devices.

8. Chief Engineering Supervisor: A crew officer who is in charge of assisting and supervising operations of the engineering section of the vessel.

9. Engineering Supervisor: A crew officer who is in charge of work in shifts, operation and maintenance of engineering.

10. Radio Operator: An operator who is in charge of telecommunications.

11. Fisheries Observer Onboard: Qualified as a crew member on the vessel, thus assigned by the competent authority of the central government and has been given tasks of collecting data, auditing fishery performances, and biological sampling.

12. Length of fishing vessel: The length shall be conceived and measured according to Article 2 of the "Regulations for Measurement of Ship".

13. Limited Water refers to the water area within the exclusive economic zone under the jurisdiction and sovereignty of the Republic of China.

14. Unlimited Water refers to the water area beyond the Limited Water.

15. A1 Water: Any water area within the range of high transmission frequency from coastal broadcast stations.

16. A2 Water: Any water area beyond A1 and within medium transmission frequency from coastal broadcast stations.

17. A3 Water: Any waters beyond A1 and A2 waters and within the range of telecommunication from a positioned satellite of the International Maritime Satellite Organization (INMARSAT).

18. A4 Water: Any water area beyond A1, A2, and A3 waters.

Article 3

All Fishermen shall hold a Fishing Vessel Crew Identification; and a Fishing Vessel Officer Certificate shall be held by all crew officers.

Article 4

Crew officers' positions and duties shall be performed accordingly and differed by the overall length of fishing vessels, power output rate of main engine, water areas in operation, and types of maintenance as the following:

1. Navigation section:

(A) First Level Captain: At the service on a fishing vessel which exceeds 24 meters of length overall and operates on unlimited

waters;

(B)First Level Mate: At the service on a fishing vessel which exceeds 24 meters of length overall and operates on unlimited waters;

(C)Second Level Captain: At the service on a fishing vessel which exceeds 24 meters of length overall operates on limited waters;

(D)Second Level Mate: At the service on a fishing vessel which exceeds 24 meters of length overall and operates on limited waters;

(E)Third Level Captain: At the service on a fishing vessel which exceeds 12 meters but less than 24 meters of length overall;

(F)Third Level Mate: At the service on a fishing vessel which exceeds 12 meters but less than 24 meters of length overall;

2. Engineering section:

(A)First Level Chief Engineer: At the service on a fishing vessel which the power of main engine output rate reaches 750,000 watts or above;

(B)First Level Chief Engineering Supervisor: At the service on a fishing vessel which the power of main engine output rate reaches 750,000 watts or above;

(C)First Level Engineering Supervisor: At the service on a fishing vessel which the power of engine output rate reaches 750,000 watts or above;

(D)Second Level Chief Engineer: At the service on a fishing vessel which the power of main engine output rate is lower than 750,000 watts;

3. Telecommunications section:

(A)Telecommunications operators who serve on board of fishing vessels equipped with GMDSS radio stations:

(a) Radio Controller: Electronic personnel who serves on board a fishing vessel, as to conduct on-board maintenance for the telecommunications devices of the vessel;

(b) Ordinary Operator on duty: Operator who serves on board a fishing vessel which sails within the A2 water; or serves on a fishing vessel which sails within the A3 and A4 waters to conduct shore-based and duplication of equipment maintenance for devices of the vessel;

(c) Restricted Operator: Operator who serves on board a fishing vessel which sails in the A1 water.

(B)Telecommunications operators who serve on board the fishing vessels without GMDSS radio stations:

(a) First Grade Radio Operator: Radio operator who serves on board a fishing vessel which operates on the unlimited waters;

(b) Second Grade Radio Operator: Radio operator who serves on board a fishing vessel which operates on the limited waters.

Article 5

Any fishery operator who employs any foreign fisherman within the territory of the Republic of China shall apply a foreign fishermen certificate for that foreigner and meet those

requirements in accordance with the "Employment Service Act" and its relevant acts and regulations.

Article 6 deleted

Article 7

A fishing vessel shall retain a name list of crew members and a set of port entry and exit records.

Article 8

The municipal/county competent authority may set the standards for employment and payment of crew members according to local custom and living standard.

The employers and employees may make contract according to the standards described in the preceding paragraph; the contract shall include the following specifications:

- 1.Name, age, place of birth, address, ID number or other identity references of the fishermen;
- 2.Date and location of signing the contract;
- 3.Calling sign of the fishing vessel;
- 4.Zone of fishery operation;
- 5.Position and duty;
- 6.Payment;
- 7.Dietary and allowances of benefits;
- 8.Guidelines for accident and fatality compensation;
- 9.Termination of contract and other conditions;
- 10.Valid period of contract;
- 11.Others.

Article 8 - 1

Any vessel crew who possesses the Fishing Vessel Crew Identification and has been recruited on board a fishing vessel flying the flag of other country shall submit relevant documentations to the central competent authority for recordation within three months after such recruitment; additionally, the same procedure shall apply whenever there is a change of the aforementioned recruitment.

The information necessary for recordation referred to in the preceding paragraph shall include name of employer, name of fishing vessel, nationality of fishing vessel, type of fishery, terms of employment, assumed position and any other relevant matters.

For vessel crew who had been recruited on board a fishing vessel flying the flag of other country prior to the amendment and enforcement of this Article, the application shall be conducted in accordance with paragraph 1 within 3 months upon the amendment and enforcement of this Article.

CHAPTER 2 Qualification, Training, Issuing of Certificate

Article 9

Ordinary fishermen shall be limited to a minimal age of 16. However one may be the exception if he/she is over the age of 15 or has already graduated from junior high school, entitles to second kinship connection to the partner of fishery business/owner of the fishing vessel without employment relation, and serves on board of a fishing vessel which does not exceed 24 meters length overall and operates on the limited water. Crew officer shall be 18 of age or above.

Article 10

Physical examination for fishing vessel crews shall only be conducted and proceeded by the followings:

- 1.Public hospitals;
- 2.Teaching hospitals approved by the health competent authority of central government level;
- 3.Health centers that are affiliated to health competent authority in city/municipality/county (city) governments.

For the items of physical examination and the format of the physical examination certificate are referred in Annex I. The certificate is valid for 6 months from the date of being issued.

Article 11

Crews must join in training as it has regulated by the competent authority of central government level, and type of training are:

- 1.Basic security training;
- 2.Professional training for crew officers;
- 3.In-service professional training.

The training courses aforesaid are designed and set forth by the competent authority of central government level, as it conforms to international standards and, may be completed by self conducting or through mandating public/private or academic institutes to proceed the training courses.

A surety bond is required hence collected from trainee by the competent authority of the central government when enroll to basic security training, as an administrative contract ought to be made and delivered for the surety bond to be returned, with the condition that the applicant has already engaged in fishery practices for over 3 months, begun anytime no later than a year since the completion of his/her training course.

The application aforesaid of surety bond return shall be only viable within an 1 year and 3 months period begins from the completion of the training course; no acceptance if apply in time of any otherwise.

For the entry requirements and required documentation for applying training courses of fishing vessel crew officers, are referred in Annex II.

Article 12

The crew officers of the navigation unit on a fishing vessel, of which length overall is 12 meters or above but not exceeding 24

meters, and which has been applied to navigate to and operate in an unlimited water, shall hold a Fishing Vessel Officer Certificate for either the First Level Captain or the First Level Mate.

Any crew officer other than the first grade captain or the first grade first mate, who wants to serve those positions mentioned in the preceding paragraph in the navigation unit on a fishing vessel, shall participate in relevant training on expertise and be qualified for this end.

Article 13

The competent authority may call upon all levels of fishermen to receive training for the purpose of management of fishery; and no fisherman shall refuse the training.

Article 14

At the first-time application of the Fishing Vessel Crew Identification, a completed application form and required documents as following shall be submitted to the competent authority at local governments that are authorized and mandated by central government:

1. 4 photos in 2-inch size , taken within the recent one year that should be revealing shoulders and clear facial without wearing hat;
2. Personal ID or ARC/Alien Registration Certificate and one photocopy of either (Personal ID or ARC will be returned after verification) .
3. One copy of declaration to describe not to have conditions stipulated in Paragraph 1 of Article 20 about not issuing the Fishing Vessel Crew Identification;
4. One copy of employment contract, verified by local fisherman associations, except for those without employment relationship described in Paragraph 1 of Article 9, and crews of the public-purpose fishing vessels conducting fishing training, circuit protection, and researches; or fisheries observer who is on mission assigned by the competent authority of central government provided with documents that can offer reference for such a status.
5. One copy of valid crew physical examination certificate issued by the medical institute stipulated in Paragraph 1 of Article 10;
6. The original copy and one duplicate of the certificate of completion on basic security training, described in Subparagraph 1 of Paragraph 1, Article 11 (the original copy will be returned after verification) ;
7. One copy of the agreement and the Personal Seal Registration of legal representative for minors.

The certificate listed in Subparagraph 6 shall be valid for application of the Fishing Vessel Crew Identification within 5 months after issuing date. Over 5 years, crews intending to apply for the Identification shall take the basic security training

stipulated in Subparagraph 1 of Paragraph 1, Article 11 of the Regulations again and receive the certificate of completion. The Fishing Vessel Crew Identification is valid for 5 years, and re-issuing application shall be made within 6 months before the expiration.

Article 14-1

For the renewal application of the Fishing Vessel Crew Identification, a completed application form and required documents as following shall be submitted to the competent authority at local governments that are authorized and mandated by central government :

1. 4 photos in 2-inch size , taken within the recent one year that should be revealing shoulders and clear facial without wearing hat;
2. The original Fishing Vessel Crew Identification;
3. Personal ID or ARC/Alien Registration Certificate with one photocopy of either.
4. One copy of declaration to describe not to have conditions stipulated in Paragraph 1 of Article 20 about not issuing the Fishing Vessel Crew Identification;
5. One copy of valid crew physical examination certificate issued by the medical institute stipulated in Paragraph 1 of Article 10;
6. The last record of employment alternation registration in the original service Identification showing state of unemployed , the applicant shall submit the employment contract verified by local fisherman associations, except for those crews who are currently without employing status described in Paragraph 1 of Article 9; or serving on public-purpose fishing vessels to conduct fishing training, circuit protection, and researches, or with a status as Fisheries Observer.

Article 14-2

In case of the Fishing Vessel Crew Identification would be expired, and expectably during the period of sailing and operating in deep seas or foreign waters, as the renewal of the identification may be applied through providing relevancies that the authority of central government has permitted for foreign seafaring, and other documents required by Subparagraph 1 ~4, Paragraph 1 of Article 14-1, except for those crews of public-purpose fishing vessels to conduct fishing training, circuit protection, and researches, or with a status as Fisheries Observer.

In case of the original Identification could not be provided due to seafaring or other forceful/irresistible occurrences, the renewal of the identification may be applied through providing substitutes such as ID card, ARC/Alien Registration Certificate, passport, or driving license. The physical examination may be completed as late within 1 month after landing in Taiwan, or to provide certificates issued by foreign health/medical institutes,

with verification and approval from embassies and representative offices of the Ministry of Foreign Affairs, R.O.C.

Article 15

For applying the Fishing Vessel Officer Certificate, a completed application form and required documents as following shall be submitted to the competent authority at local governments that are authorized and mandated by central government :

1.2 photos in 2-inch size , taken within the recent one year that should be revealing shoulders and clear facial without wearing hat;

2.One duplicate of the fishing-vessel crew handbook;

3.One original and duplicated copy of the certificate of the fishing-vessel crew examination issued by the Examination Yuan, and the certificate of completion of professional training for fishing vessel officers issued by the supervising institute of central government, or other certificates of trainings equal to those trainings for fishing-vessel officers through review verification of the supervising institute of central government (the original copy will be returned after verification) ;

4.One copy of valid crew physical examination certificate issued by the medical institute stipulated in Paragraph 1 of Article 10;

5.Other documents for submission or verification, designated by the supervising institute of central government are referred in Annex III.

Other certificates of trainings equivalent to those trainings for fishing vessel officers, described in Subparagraph 3 refer to the certificate of examination for seafarers issued by Examination Yuan, the diploma of related departments in maritime colleges, or the certificate of competency for crews issued by Ministry of Transportation and Communication, which are reviewed and verified to be equivalent as the trainings for crew officers by the supervising institute of central government. The review and verification guidelines shall be adapted by the supervising institute of central government.

When applying for the Fishing Vessel Officer Certificate, apart from submitting the references and documentation required by 1~3, and have been awarded and holding certificate of examination, diploma, certificates of trainings, or certificate of competency that mentioned in the precedent paragraph for more than 5 years, the applicants shall take the professional training of crew officers stipulated in Subparagraph 2 of Paragraph 1, Article 11 of the Regulations again and acquire the certificate of training, expect for those who have already had 1 year of experience of fishery operation conduct gained from the past 5 years, provided with documents that can offer reference for such a profile.

The certificate is valid for 5 years, and re-issuing application shall be made within 6 months before the expiration.

Article 15-1

For the renewal application of the Fishing Vessel Officer Certificate, a completed application form and required documents as following shall be submitted to the competent authority at local governments that are authorized and mandated by central government :

1. 2 photos in 2-inch size , taken within the recent one year that should be revealing shoulders and clear facial without wearing hat;
2. The duplicate of the fishing-vessel crew handbook;
3. One copy of valid crew physical examination certificate issued by the medical institute stipulated in Paragraph 1 of Article 10;
4. The original copy of the certificate;

Article 15-2

In case of the Fishing Vessel Officer Certificate would be expired, and expectably during the period of sailing and operating in deep seas or foreign water. As the renewal of the certificate may be applied through providing relevancies that the authority of central government has permitted for foreign seafaring, and other documents required by the Article 15-1, except for those crews of public-purpose fishing vessels to conduct fishing training, circuit protection, and researches, or with a status as Fisheries Observer.

In case of the original certificate could not be provided due to seafaring or other forceful/irresistible occurrences, the renewal of the certificate may be applied through providing substitutes such as ID card, ARC/Alien Registration Certificate, passport, or driving license. The physical examination may be completed as late within 1 month after landing in Taiwan, or to provide certificates issued by foreign health/medical institutes, with verification and approval from embassies and representative offices of the Ministry of Foreign Affairs, R.O.C.

Article 16

Any person who applies for a Foreign Fisherman Certificate shall be required for his/her fishery operator to complete then submit an application form as well as required documents as following through the local fishery association to the municipal/county competent authority which is authorized by the central competent authority:

1. 2 photos in 2-inch size, taken within the recent one year that should berevealing shoulders and clear facial without wearing hat;
2. Passport photocopy;
3. Photocopy of the employment permission issued by the Council of Labor Affairs;
4. Photocopy of a physical examination report issued by a designated hospital by the Department of Health;
5. Certificates of relevant trainings for qualified position according to Article 11-1.

Any fishery operator who hires foreign fishermen shall, within seven days upon obtaining the employment permission issued by the Council of Labor Affairs, present a photocopy of the permission to the municipal/county competent authority for reference. After the foreign fisherman return upon term expiry or dismissal, the relevant fisherman association shall retrieve the Foreign Fisherman Certificate and return it to the original issuing authority.

Term for the Foreign Fisherman Certificate shall not exceed the term of employment prescribed by the Council of Labor Affairs.

Article 17

All Crews including Fisheries Observers shall have Fishing Vessel Crew Identification in held and kept when sail for fishery operation or observation, and so shall the Fishing Vessel Officer Certificate to be held and kept by officers. If the certificates or identification aforesaid are not brought or be back reserved during punishing period, crews shall not be allowed for working on the sea. When the aforesaid certificates or identification are found missing the sufficient information and details or damaged, a completed application form and required documents as following shall be submitted for application of re-issuance:

1. 2 photos in 2-inch size , taken within the recent one year that should be revealing shoulders and clear facial without wearing hat;

2. The original Fishing Vessel Crew Identification, or the Fishing Vessel Officer Certificate.

If the aforesaid certificate or identification has found been lost before expiration, a completed application form and required documents as following shall be submitted for application of re-issuance:

1. 2 photos in 2-inch size , taken within the recent one year that should be revealing shoulders and clear facial without wearing hat;

2. Personal ID or ARC/Alien Registration Certificate, with 1 duplicate of either (Personal ID or ARC will be returned after verification);

3. Declaration of lost.

When applicants are requesting Identification re-issuance according to Paragraph 2 and Paragraph 3, and are found unemployed without employers, the employment contract verified by local fisherman associations shall be submitted, except for those crews who are currently without employing status described in Paragraph 1 of Article 9, or serving on public-purpose fishing vessels to conduct fishing training, circuit protection, and researches, or with a status as Fisheries Observer.

The expiration of identification or certificate reissued according to Paragraph 2 and Paragraph 3 will be the same with that of original identification or certificate.

Article 17-1

When having confronting the transfer to another fishing vessel, change of assumed position or termination of employment, the crew shall apply for the modification registration of the Fishing Vessel Crew Identification within seven days after the occurrence of such modification.

When a foreign crew recruited within the territory of the Republic of China has confronted the transfer to another fishing vessel, both the former and the new fishery operators shall apply for the modification registration of his/her Fishing Vessel Foreign Crew Identification within seven days after the occurrence of such modification.

Article 18

Any applicant for an internship on the fishing vessel shall be processed and applied in the specific name list with others as a whole, by his school or training institution, to the municipal/county competent authority, to which the fishing vessel is registered, and also authorized by the central competent authority, as to issue an Intern Fishing Vessel Crew Identification.

Article 19

Crew officers who are not allowed to operate as ordinary fishermen on a fishing vessel which measured as 12 meters and above in hull length, if the following conditions have been applying:

- 1.Crew officers whose certificate has currently been withdrawn due to penalties, and has not yet completed the proceeding.
- 2.Crew officers who have been under the condition of revocation or cease-apply (discard) of his or her certificate for less than 2 years.

Article 20

The following conditions, if any of them has applied, the crew will be denied from the renewal application and issuance of Fishing Vessel Crew Identification or Fishing Vessel Officer Certificate:

- 1.A crew, who is currently having sentences enforcing; sentences unaccomplished; or is wanted by the court/judicial authorities. One may be the exception, if he/she has been granted the permission of seafaring, during the period of probation/reprieve, by the order of court/prosecutor's office.
- 2.A crew, whose Fishing Vessel Crew Identification or Fishing Vessel Officer Certificate has been revoked by the laws for less than two years. As the competent authority may seek assistance from the justice and police authorities to examine whether a crew's profile and conditions has been applicable to sub-paragraph 1 mentioned above.

Article 21

The Fishing Vessel Officer Certificate, issued prior to the amendment of the Regulations which was promulgated on the 29th of June 2001, shall be replaced by new certificate. Applicants of new certification must provide documentation required, which offers reference of experiences in engaging fisher operation for long as a period of 1 year any time within the past 5 years, or 3 months of such an experience gained in the past 1 year. The application process and documents essential for submission are referred in Annex IV.

CHAPTER 3 Fishermen Assignment, Responsibility, Working Terms

Article 22

The least personnel assigned for various levels of crew officers is referred to Annex V.

Article 23

The rank of crew officers described in Article 4 are presented as follows:

1. Navigation section: First Level Captain, First Level First Mate, Second Level Captain, Second Level Mate, Third Level Captain, Third Level Mate;
2. Engineering section: First Level Chief Engineer, First Level Chief Engineering Supervisor, First Level Engineering Supervisor, Second Level Chief Engineer;
3. Telecommunications section:
 - (A) GMDSS Station: Radio Controller, Ordinary Operator on-duty, Restricted Operator on-duty;
 - (B) Non-GMDSS Station: First Grade Radio Operator, Second Grade Radio Operator.

Any personnel mentioned in the preceding paragraph, who holds a higher ranking position, may take a lower ranking position. Lower ranking crew officers at Navigation and Engineering sections may perform as a proxy for a higher ranking position, if his/her fishery operator has reported the matter and therefore gained approval from the central or municipal/county competent authorities. The period of deputation shall not be exceeding 3 years. An experienced fisherman may apply by the fishery operator to the municipal/county competent authority and receive an approval to act as a proxy Third Level Captain, Third Level First Mate, or Second Level Chief Engineer, with a cumulative term not exceeding two years.

The experienced fishermen mentioned in the preceding paragraph means any fisherman with an age of 20 or above, who does not operate on a raft nor a sampan, and with at least one of the following conditions:

1. Having served on a fishing vessel with length overall of less than 12 meters for three years;
2. Having served on a fishing vessel with length overall of more than 12 meters but less than 24 meters for two years;

3.Having served on a fishing vessel with length overall of more than 24 meters for one year.

Article 24

The captain is responsible for the safety and management of the whole fishing vessel and is in charge of the following tasks:

- 1.To supervise and to direct all fishermen in navigation and fishery operation; in case of more than two fishing vessels operating as a group in the same fishery operation, captains of the subsidiary fishing vessels are under the command of captain of the main fishing vessel;
- 2.To select fishing ground, to decide operation location, and to instruct fishing techniques;
- 3.To use and maintain fishing gears, navigational and capturing equipments;
- 4.To have the full knowledge of the fishing vessel's structure and functions; and at all time to oversee safety checks; upon a leave, the captain shall transfer the knowledge and property of the fishing vessel and relevant records to the successor;
- 5.To proceed with immediate rescue when other fishing vessels calling for help, unless one' s fishing vessel itself is in danger;
- 6.To keep well all legal proofs and documents pertaining to the fishing vessel;
- 7.To keep entry of and examine the logbook at all times;
- 8.To supervise and assess interns;
- 9.To faithfully record in the logbook the cause, timing, and location of the following circumstances and have it sent to the navigation administration and fishery competent authority at the port at which the fishing vessel arrives first:
 - (A) This fishing vessel encountered maritime distress and danger;
 - (B) To discover other fishing vessels in collision or maritime distress;
 - (C) To rescue vessels or persons in maritime distress;
 - (D) To penalize fishermen due to his faults;
 - (E) Any fisherman who is missing, dead, harming others or disseminating contagious disease;
 - (F) Other important matters.
- 10.To make a maritime report according to Article 66 of the Shipmen Act;
11. To provide Fisheries Observers sufficient and necessary aids to complete their assigned missions.
- 12.Anything requests by the competent authority.

The First Mate of the fishing vessel, if any, is responsible for the tasks mentioned in Subparagraph 3 of the preceding Paragraph.

Article 25

The First Mate is under the captain's order to instruct at the wheel, to manage deck affairs and to supervise all levels of the navigation staffs in various operation and internship activities.

In case the captain dies or cannot carry out his responsibility during navigation and in the absence of a successor, the highest ranking first mate shall act as the proxy for the captain.

Article 26

The Chief Engineer is under the captain's order to supervise all affairs in the engineering section and is in charged of the following responsibilities:

- 1.To manage, use, and maintain the engines;
- 2.To examine all parts of the machinery both before leaving a port and after arriving at a port;
- 3.To supervise engineering staffs to repair when such repairing is possible;
- 4.To examine all parts of machinery and their various functions, report to the captain, and record into the engineer's logbook if the fishing vessel is in collision or grounded;
- 5.To have the full knowledge of, and to keep record of the engine's various functions; upon a leave, the chief engineer shall transfer the knowledge of the engine functions and records to the successor;
- 6.To supervise and assess interns in the engineering section;
- 7.To faithfully record in the engineer's logbook the cause, timing, and location of the following circumstances and have it sent through the captain to the navigation administration and fishery competent authority at the port at which the fishing vessel arrives first:
 - (A) The engines experience major malfunction or the engine room encounters major accidents;
 - (B) To provide or take from other fishing vessels any fuel or auxiliary machinery during the rescue mission;
 - (C) Other important matters relevant to the engineering section.

Article 27

The First Level Chief Engineering Supervisor and First Level Engineering Supervisor are under the First Level Chief Engineer's order to supervise engineering section staffs in various machinery operations and to train interns; If the First Level Chief Engineer cannot carry out his responsibilities for any reasons, the First Level Chief Engineering Supervisor shall act as proxy for the First Level Chief Engineer.

Article 28

The Radio Operator is under the captain's order to be responsible of all telecommunications and is in charge of the following tasks:

- 1.To take care of communication equipment, plain and secret code, and relevant documents and legal decrees on communications;
- 2.To listen to broadcast on weather report and fishing conditions, record and report to the captain at all times.;
- 3.Report fishing vessel's position to the coastal station;

4.To communicate with designated agency units within prescribed time duration;

5.To abide by relevant legal decrees on communication;

6.To report to the captain for further instruction, and to faithfully record in the logbook of telecommunications, when encountering the following circumstances:

(A) Having received rescue signals from other vessels;

(B) Having received instructions on navigation from coastal station;

(C) Having received emergency notification from other units;

(D) Having received telegrams on worse weather conditions;

(E) Having received notification from coastal station or other vessel station, which might affect the fishing vessel's safety;

7.Any instant orders the captain gives;

8.The Radio Operator shall not communicate with any non-designated units, unless, for any operation and navigation safety reasons, under the captain's instruction or approval, due to an emerging need to communicate with other coastal station or vessel platform;

9.Other important matters.

Any fishing vessel that does not assign a Radio Operator on board shall have a crew officer who has received relevant training on telecommunications to act as the proxy.

Article 29

The ordinary fisherman shall obey the captain's and crew officer's supervision and direction for various operations.

Article 30

All fishermen shall obey relevant regulations of international standards when being on duty of navigation, engineering, and telecommunications.

CHAPTER 4 Fishermen Works

Article 31

The fishermen shall not commit the following behaviors:

- 1.to illegally conduct fishery or engage in illegal fishing activities during fishery operation;
- 2.to apply twice, to use counterfeit, or to lend the Fishing Vessel Crew Identification or Fishing Vessel Officer Certificate;
- 3.to join a collective slowdown and strike or to intentionally sabotage the fishing vessel or fishing gears;
- 4.to be absent from post or delay to return to the vessel upon the expiry of vacation;
- 5.to lack cooperation or to demand unreasonable payment that cause other vessel to suffer from disaster or kidnapping;
- 6.to poach other country's economic waters during operation, or to fish in a water area specifically prohibited by the Regulations of the competent authority or to intentionally capture marine organisms that are protected by regulations of the

competent authority;

7.to evade, undermine, or refuse mission conducts by Fisheries Observers.

8.other activities that violate relevant laws or this Regulations.

Article 32

Crew officer shall faithfully record on fishing areas, fishing results, sea conditions, and relevant fishery surveys on a daily basis according to the Regulations.

CHAPTER 4-Fisheries Observers' Assignments and Duties

Article 32-1

The competent authority of the central government may assign Fisheries Observers to conduct the following tasks on fishing vessels:

1. To audit authenticity of the data and information provided by the Captain commanding the fishing vessel in operation.
