Content :	Chapter I, General Provisions	
	Article 1	<p>The Irrigation Association's objective is to promote farmland irrigation operations on behalf of the central government.</p> <p>The Irrigation Association is a Public Juridical Person.</p>
	Article 2	<p>Guidelines to organizational structures and pertinent details of the Irrigation Associations is governed by this Act. Issues not addressed by this Act will be governed by other acts.</p>
	Article 3	<p>The Irrigation Association uniformly adopts designations of that specific region, or names of that specific region's reservoirs and canals.</p>
	Article 4	<p>Supervising authorities referred to in the General Principles: the Council of Agriculture under the Executive Yuan.</p>
	Chapter II, Regions and Establishments	
	Article 5	<p>In regard to Irrigation Association's operation districts, supervising authorities shall establish such operation districts based on river area, their specific geographic makeup and economic returns.</p>
	Article 6	<p>The establishment of The Irrigation Association is conducted according to the following:</p> <p>1.The institution of the Irrigation Association can be initiated by a collective of 50 members or above, with qualifications specified in Article 14. The applicants shall report to supervising authorities for approbation;</p> <p>2.The establishments of local operations deemed necessary by supervising authorities.</p>

- Article 7 For preparations and arrangements of the Irrigation Association, they shall be organized by initiator's preparation agencies. They shall receive consultations from supervising authorities.
- Article 8 The Irrigation Association's preparation agencies shall put forth application forms, an organization constitution outline, operation's topography map, project modus operandi, budget outline and a roster of qualified members from such specific operation districts, and a letter of authorization bearing signatures of more than half of the qualified members. They shall file an operation application with supervising authorities.
- Article 9 For those within administrations, upon the establishment of the Irrigation Association, when encountering a change of force majeure in the natural environment, or, if there has been modifications on water resource planning, supervising authorities shall, in accordance with their authority of office, or with an application with the Irrigation Association, determine whether mergers, divisions, modifications or revocations are necessary for specific regional Irrigation Association or operation districts.
- Aforementioned applications for such actions shall be approved by advisory committee, and agree of more than half of the members.

Chapter III, Missions and Rights

- Article 10 Missions of the Irrigation Association are stipulated in the following:
- 1.The initiation, improvement, maintenance, and management of farmland irrigation operations;
 - 2.Precautionary and rescue measures in the event of disasters and threats on farmland irrigation operations;
 - 3.The raising of expenditure and institution of funds for farmland irrigation operations;
 - 4.Research and development projects for the interests of farmland irrigation operations;
 - 5.The collaboration with government over land, agricultural, and industrial policies, and rural village development programs;
 - 6.Affairs and projects consigned by supervising authorities.
- Article 11 In regard to construction lots necessary for the establishment or improvement of irrigation facilities, the Irrigation Association shall lease, or buy, from land owner or other encumbrancers; if both parties fail to reach an agreement, the Irrigation Association shall ask supervising authorities to collect the lots in conformity with the law. If the lots are publicly owned, the Irrigation Association shall apply for a lease or purchase plan.
- For lots originally used for irrigation projects, they shall be put to use as of old. During such periods, land taxes on the lots shall be exempted.

- Article 12 The Irrigation Association shall proceed with any measurement and investigation project for the purpose of establishing irrigation facilities. If, during such, measurement and investigation projects require the removal of any obstacles, the Irrigation Association shall notify local county (or municipal) administrations, informing land owners or occupants for removal of the obstacles.
Should accidents result from the aforementioned obstacle removal, land owners or occupants shall ask for indemnity. Supervising authorities shall mediate disagreements should there be any controversies.
- Article 13 The Irrigation Association shall report to supervising irrigation authorities to handle any mishaps in accordance with Water Act, Article 76, and detailed prescriptions in the event of floods, draughts, or natural disasters.
- Chapter IV, Members and Organization
- Article 14 Those who meet any one of the following qualifications within the Irrigation Association's operation districts, shall become a member:
1.Supervising authorities of any public arable, or any representative from such agencies;
2.Owner or proprietor of any public arable;
3.Lessee or permanent tenants of any public, or private arable;
4.Other beneficiaries.
If owner, proprietor, lessee, permanent tenant or beneficiary mentioned in Clause 2 to 4 is a juridical person, his or her supervisor, or representative, shall instead be the member.
- Article 15 Members of the Irrigation Association are entitled to irrigation and drainage facilities, and rights stipulated in pertinent statutes and organization constitutions. Members are required to pay membership fees, and be responsible for duties stipulated in pertinent statutes and organization constitutions. If members fail to fulfill duties required of them,the Irrigation Association shall report to supervising authorities for an approval to suspend one, or all of the rights enjoyed by members.
Should damage occurs to members as a result of the Irrigation Association's violations of certain statutes, or other inappropriate acts of the associations, members shall ask for indemnity incurred from the damage.

Article 15-1	<p>Any member of the Irrigation Association meeting the following requirements may have the right to elect or recall president and advisory committee:</p> <ol style="list-style-type: none"> 1.Members of natural persons reaching 20 years of age; 2.Continuous membership for not less than 6 months; 3.Total farmland which are entitled to irrigation or drainage facilities shall be not less than 0.01 ha. <p>Clause 3 aforementioned computing land area in accordance with land register of land office in 60 days before the voting day. If land register do not indicate the ratio of land rights, divided by the number of owner.</p> <p>Supervising authorities may provide cadastral data and census data to Irrigation Association. Both data above shall be made in accordance with the provisions of the Personal Information Protection Act.</p> <p>Regulations for membership qualification and member Information correction in Irrigation Association shall be promulgated by supervising authorities.</p>
