(2) Facilities for associated industries and other facilities of necessity to support

the functioning of the fishing port: such facilities as ice making factories,

cold storages, seafood processing plants, shipyards, engine repair shops, net

manufacturers, fish wholesales business centers, fishermen' s associations,

fishery organizations, offices of fishery operators.

Article 3

First and Second Categories of fishing ports that mapped out by Article 4 of the Act shall be met with the following regulations:

1. First Category fishing ports

(1) Those ports having a mooring space of an area exceeding 100,000 sq. m.,

capable of accommodating more than 100 vessels of 1 million tonnages class.

(2) Those ports having fish market, loading and offloading piers, as well as full

facilities of supplies (fuel, water and ice), fish processing, freezing, vessel

engine repairs and maintenance; those ports having convenient traffic outlets,

facilitating transport and the auctioning of fish catches.

(3) Those ports having an annual amount of fish catches for more than 20,000

metric tons.

(4) Those ports accommodating more than 100 local fishing vessels of 500,000

tonnages class.

2. Second Category: all other fishing ports that do not belong to the First Category.

The local fishing vessels mentioned in the above item refers to fishing vessels belonging to that port, according to information on the fishing licenses.

Article 4

In accordance with Paragraphs 1 or 2 of Article 5 of the Act, the competent authorities shall submit the following documents to the application for mapping out the fishing port area:

1. Main reason for the designation or amendment.

2. A description of the fishing port area.

3. Survey form of related areas.

4. Survey form of the facilities of the port.

5. Structural drawings of the major facilities of the port.

6. Plane of the fishing port area.
7. Jurisdiction map of the municipality/county (city).
8. Other necessary documents or proof.

Article 5

Classification of the specific zone as referred to in Paragraph 3 of Article 5 of the Act, shall include the following:

1. Passenger transportation and freight zone.
2. Yacht building zone
3. Yacht wharf zone
4. Leisure zone
5. Energy generation zone
6. Other specific zones as mapped out by the competent authority

As for the zone designation of each specific business within the fishing port, it shall subject to the approval from each competent authority of specific business.

According to the types of specific zone mapped out based on the regulations of Paragraph 1, as for the designation of specific zones that belong to the First Category fishing port, they shall be administrated by the central competent authority of specific business, which also can be entrusted the competent authorities of municipality/county (city) where the port located, or the fishermen' s associations, or other related corporations and organizations to undertake the management and maintenance tasks for the fishing port; as for zones within the Second Category fishing ports, they shall be administrated by the competent authorities of municipality/county (city).

Article 6

The fishing port planning referred to in Paragraph 1 or 2, Article 6 of the Act, shall include the following:

1. Scope of water and land areas.
2. Objective of port development.
3. Plan on the distribution of the use of water area.
4. Plan on the distribution of the use of land area.
5. Plan on port facilities
6. Plan on transport system
7. Plan on construction of facilities
8. Other related planning made by the competent authority.

Article 7

Fishing ports shall build the following piers according to actual needs:

1. Fish offloading pier.
2. Fuel taking pier.
3. Ice supply pier.
4. Water supply pier.
5. Repair pier.
6. Supply pier.
7. Resting pier.
8. Public affair errands pier.
9. Pier for other specific zones

The location and length of fishing port stated in previous item shall be mapped out and promulgated by the competent authority, except for the regulation stated in Item 9, which shall be subjected to the designation by the competent authority jointly with the competent authorities of specific business.

Article 8

Pursuant to Article 9 of the Act, the permission that made by the competent authority to the applications of newly and additionally constructing or reconstructing buildings and each facility within the fishing port area should be conformed to the fishing port planning of the said port.

Article 9

Pursuant to Paragraph 1, Article 16 of the Act, all vessels entering into and departing from fishing ports should fill up an application form to apply the permission from the competent authority. Application times are as follows:

1. For domestic fishing vessels but not registered with the fishing port:
three days
 before operations
2. For other vessels without domestic flags: three days prior to entering the port
3. For foreign fishing vessels or fish transport vessels: fourteen days prior to
 entering the port

Article 10

The central competent authority shall entrust the management of the fishing ports mentioned in Article 11, the collection of management fees mandated in Paragraph 1, Article 12; the management of the fishing port's public utilities, repair and maintenance work, as well as the implementation of the regulations in Articles 15 to 19 of the Act to the competent authorities of municipality and county (city).

Article 11

These Regulations shall enter into force on the date of promulgation.
